

EDUCATION

- **Courant, New York University** Manhattan, NY
Master of Science in Computer Science; GPA: 3.81 *Sep 2017 – Present*
- **Indian Institute of Technology** Mandi, India
Bachelor of Technology in Electrical Engineering; GPA: 8.13/10.0 *Aug 2013 – June 2017*

AWARDS

- **Kaggle**: Secured 2nd position in NYU Traffic Sign Competition.
- **Capgemini Hackathon**: Secured 1st position for our novel health monitoring solution using deep learning, Aug 2018.
- **Siemens Data Science Hackathon**: Secured 1st prize among 60 teams the held at LMU, Munich
- **Siemens-CKI Hackathon**: Secured 1st runner-up held at TU, Munich in Mar. 2017.
- **IIT Joint Entrance Exam**: Was in top 1 percentile of total around 1,500,000 candidates.
- **National Maths Talent**: Won the GOLD medal at 25th ManavSthali National Maths Talent held at Delhi, India.

EXPERIENCE

- **Research, Prof. Yann Lecun** *New York University* *Oct 2018 - Present*
 - **Text-based games using RL**: Using memory based networks in tandem with exploration techniques for solving text-based games using reinforcement learning.
- **Research, Prof. Rob Fergus** *New York University* *Oct 2017 - Present*
 - **Multi-Agent Communication**: Research on novel architecture for multiagent controlled continuous communication over cooperative, competitive and mixed tasks in RL set-up. Proceedings of ICLR 2019
 - **Generative Adversarial Imitation Learning**: Research on imitation learning using generative model. Designed a novel method for using GANs as environment simulator for model-based Reinforcement Learning.
- **Research, Prof. Sam Bowman** *New York University* *Feb 2018 - May 2018*
 - **Question Generation**: Survey research project on question generation via machine comprehension and achieved SOTA results for the task using attention with seq-to-seq with beam search.
- **Research, Prof. Lawrence Sirovich** *Rockefeller University* *June 2018 - Present*
 - **Genomics Trait & Disease Prediction**: Research on genomics data (GWAS), where # input features \gg #training examples, making it difficult to avoid overfitting, for disease prediction on SNPs.
- **Udacity** *Reviewer and Mentor* *May 2017 - Present*
 - **Mentor**: Mentor & project reviewer for students in ML, DL, Deep RL Nanodegrees.
- **Indian Institute of Technology** *Research Assistant, Prof. Aditya Nigam* *Feb 2017 - June 2017*
 - **Biometric Data Synthesis Using GAN**: Research on using multiple generators and discriminators to speed-up GAN training. Multiple discriminators with varying architecture provided empirical speedup during training time.
- **Innovation Lines** *Machine Learning Intern* *Dec 2015 – Feb 2016*
 - **Smart Systems**: Using object (person) detection (via CNN), developed automated video adverts. Developed smart irrigation system based on physical measurements from sensors using neural network for classification.

PROJECTS

- **PocketPrinter**: Developed a hand-sized printer capable of printing on all flat surfaces of any size and controlled it via an android application and capable of doing voice-to-print or text-to-print.
- **File Tone Transfer Protocol**: Used audio waves to transfer text files between machines within ear-shot distance.
- **Weather Stations & Server**: Developed and deployed multiple weather data collecting stations (built on BBB) across university campus and deployed with a central server.

LANGUAGES AND TECHNOLOGIES

C++, Python, Java, JavaScript, SQL, MATLAB, C, L^AT_EX, TensorFlow, PyTorch

SELECTED COURSES

Machine Learning, Deep Learning, Computer Vision, Reinforcement Learning, Natural Language Processing

PUBLICATIONS

- IC3Net for Multiagent Tasks: Amanpreet Singh*, **Tushar Jain***, Sainbayer Sukhbaatar; Proceeding ICLR 2019
- Question Generation from Machine Comprehension: Rajat Agarwal, **Tushar Jain**, Kumar Mehta; Report
